

## Graduate Certificate in Diabetes (GC-DIABET)

### Clinical placement form

Clinical placements are part of this course, but must be arranged before applications are accepted. To assist the School with this process you are required to complete this form which will be part of your application. This form enables you to nominate your preferred placement site. A list of possible sites is provided. If no suitable site is listed an alternative site can be nominated by completing the second section below and through discussion with the Course Coordinator.

Name of Student:	
Student Number:	
Preferred State:	
Preferred City:	
Preferred placement site:	
<i>See attached list of sites that Curtin already has a Placement Agreement with.</i>	
<i>If you have another preference, see requirements below for suitable placement sites, and please provide details below on how to contact the relevant person at your preferred site.</i>	
Name:	
Position:	
Email address:	
Telephone no:	
Preferred preceptor (if known):	
Contact details:	

### **Placement Requirements:**

The Australian Diabetes Educators Association (ADEA) (<http://www.adea.com.au/>) requires students to be exposed to a variety of clients with diverse needs. These include people:

- With different types of diabetes.
- At various life stages (children, adolescents, transition to adult services, adults, elderly).
- At various disease stages (newly diagnosed, managed with oral hypoglycaemic agents, initiation of insulin therapy, complications).
- With special needs (ATSI, CALD, disabilities).

In addition you also need to gain insight into different interventional approaches used with individuals and groups.
