MEDICINE AT CURTIN

The Curtin Medical School offers a five-year, direct-entry Bachelor of Medicine, Bachelor of Surgery (MBBS) degree. This is the only undergraduate entry program in Western Australia.

WHAT CURTIN HAS TO OFFER

Curtin recognises the complex issues facing the Western Australian health system, its workforce and the need for more doctors to be “generalists” in their orientation. This means we are committed to producing graduates who are better equipped to meet community needs, with primary care expertise, strong leadership skills and the ability to operate effectively in interprofessional care teams.

The overall aim of the Curtin Medical School is to graduate doctors who are competent and ready to practise safely and effectively, with care and compassion for patients and their families. As a Curtin Medical School graduate, students will develop an understanding of medical and scientific knowledge; communication and clinical skills; skills as a health advocate; an awareness of ethical and professional responsibilities to patients; and strategies to cope with the challenges of medicine.

As a graduate of the course students will be well prepared to begin an internship and pursue further medical training in specialty fields.

The MBBS degree has an integrated curriculum requiring self-directed learning and draws on many disciplines to provide learning in a clinical context. From the first year of the program, Curtin Medical School will offer clinical scenarios that provide the context for learning about the scientific foundations of medicine.

The Bachelor of Medicine, Bachelor of Surgery is accredited by the Australian Medical Council. All students will be registered with the Australian Health Practitioner Regulation Agency (AHPRA).

Curtin Medical School delivers:

- A medical curriculum that emphasises primary care and prepares graduates to meet healthcare needs in Western Australia.
- Learning with other healthcare professionals and preparing for working in interprofessional teams.
- A concentration of clinical placements in the underserved south-east metropolitan corridor and regional Western Australia.
- The development of competencies in patient safety, quality of care and leadership.
- Learning about the translation of evidence into clinical practice and health improvement.
- Engagement with research teams in the Faculty of Health Sciences.
- Optional international student placements with partnered host institutions.

CURTIN MEDICAL SCHOOL MISSION

With a strong emphasis on primary care, the mission of the Curtin Medical School is to position graduates well for rural and remote practice, as well as outer metropolitan locations, where there is a shortage of doctors.

MEDICAL REGISTRATION

After graduation and before being admitted to full registration as a medical practitioner in Australia, graduates receive provisional registration. Graduates will enter the workforce as an intern and must serve at least 12 months in an approved hospital. In the future, part of this training may be undertaken in general practice. The internship requires a series of rotations designed to expose you to a range of clinical situations and environments. This will provide further clinical training and help inform career choice. Medical students are registered with the Medical Board of Australia.

COURSE STRUCTURE OVERVIEW

In the first year of the course, students undertake interprofessional units designed to promote collaborative practice and learning opportunities with other health sciences students. In addition, students are introduced to problem-based learning in discipline-specific units in medicine and participate in structured activities that take students into the community with a variety of health professionals.

The second and third years include intensive study of the structure and function of the human body in health and disease, using a problem-based learning approach. Students will continue to have opportunities to be exposed to a range of healthcare settings.

In the fourth year there is a transition from learning mainly on the University campus to learning in the clinical setting. Students will be offered a variety of clinical experiences including placements in outer metropolitan, rural and regional locations, in both community and hospital settings.

In the fifth and final year of study, students will work in clinical settings as members of the healthcare team. The training in the clinical settings will be in a range of different environments to prepare students for their internship.

The course is underpinned by four inter-related themes, integrated across the five years:

Theme 1: Scientific Foundations of Medicine

Knowledge of the biological, clinical, epidemiological, social and behavioural sciences underpinning medicine and clinical practice, and evidence-based practice.

Theme 2: Patient and Doctor: Clinical Practice

The clinical, procedural, and communication skills essential for clinical practice.

Theme 3: Health and Illness in Society

Knowledge of health systems, and the cultural, socio-economic and physical environmental factors that contribute to health and illness, disease and treatment at the population level.

Theme 4: Professional and Personal Development

Commitment to professional values and high-quality clinical practice, including ethics, law and working as a member of an interprofessional healthcare team; and understanding of the importance of maintaining personal wellbeing.

CLINICAL PLACEMENTS

Students will have the opportunity to undertake clinical placements at St John of God Midland Public Hospital, Royal Perth Hospital, Fiona Stanley Hospital, Peel Health Campus, as well as general practice clinics across the state and rural medical settings.

The following mandatory essential requirements must be met before students can undertake clinical placements:

- National Police Certificate
- Working with Children Check (2nd year requirement)
- First Aid Certificate ("Provide First Aid")
- Mental Health First Aid certification
- Immunisations and health screening
- Hand hygiene training (online).

 curtin.edu/hs-fieldwork-requirements

First Aid Certificate and Mental Health First Aid training courses will be arranged as part of pre-Orientation.

Incidental fees are applicable for the majority of essential requirements listed above.

 students.curtin.edu.au/essentials/fees/fees-and-charges/

COURSE ADMISSION CRITERIA

COURSE ESSENTIALS

MINIMUM ATAR 2018 95	DURATION 5 years full-time	STAT Not accepted	INTAKE February
UCAT¹ Applicants are required to sit the UCAT ANZ	LOCATION Perth	STUDY MODE Full-time	CURTIN ENABLING COURSE² Not accepted

PREREQUISITES

Chemistry ATAR or equivalent
OR

- International Baccalaureate Chemistry at HL Grade 3.
- CHEM1003 Introduction to Chemistry and CHEM1005 Introduction to Biological Chemistry with a grade of 60 or higher in both units, offered through Curtin University.
- Completion of the Chemistry ATAR course with a final scaled score of 50 through North Lake Senior Campus or Cyril Jackson Senior Campus.

For queries regarding other equivalent subjects, please email CMSFutureStudents@curtin.edu.au

ENGLISH LANGUAGE REQUIREMENTS

futurestudents.curtin.edu.au/english-proficiency/

DESIRABLES

One of the following Mathematics ATAR courses: Mathematics Applications, Mathematics Methods, Mathematics Specialist, or equivalent.

1. Indigenous applicants are not required to sit the UCAT ANZ.
2. With the exception of the Indigenous Pre-Medicine and Health Sciences Enabling Course.

TARGET APPLICANTS

The degree is primarily for Western Australian school leavers who have completed year 12 or equivalent and do not have a higher degree record. Places will be prioritised for students from rural and regional areas, Indigenous backgrounds and students who have experienced long-term educational disadvantage. These students will receive additional weighting in the admission process in recognition of the historic and current disadvantage experienced by people from these groups in accessing higher education.

In addition, a small number of places will be made available to non-school leavers (including Curtin course switchers and graduates).

Applicants who are interested in applying for the course but have limited access to IT facilities or the internet are encouraged to contact the Curtin Medical School directly via email at cmsfuturestudents@curtin.edu.au.

In 2020 a total of 90 places will be available.

Places not filled in the Rural, Equity or Indigenous pathways will be allocated to the School Leaver pathway.

BONDED MEDICAL PLACES FOR 2020

The Curtin Medical School is offering Bonded Medical Places as a part of its 2020 intake.

Approximately 28 per cent of Commonwealth Supported Places in university medical programs across Australia are currently set aside for the Federal Government's Bonded Medical Places (BMP) scheme.

The scheme provides students with a Commonwealth supported medical place at an Australian university in return for their commitment to work in regional, rural and remote areas for a specified period at the completion of their training. An area of medical need will be a district of workforce shortage as defined by the Australian Federal Government.

Please note that the information contained in this guide is subject to change throughout the admission period. Applicants for the 2020 intake are encouraged to regularly check the following website for up-to-date information: curtin.edu/medicine-application.

WHO CAN APPLY

Applicants for the MBBS degree must be Australian citizens, Australian permanent residents or New Zealand citizens who have successfully completed year 12 with a Western Australian Certificate of Education (WACE) or an equivalent senior secondary qualification and have an Australian Tertiary Admission Rank (ATAR), or equivalent.

All applicants will be required to meet the MBBS specific academic standards including competency in English, Chemistry ATAR or equivalent and sit the UCAT ANZ test, except where specified. Entry into this course is very competitive. Meeting the minimum entry requirements does not guarantee an interview or an offer in the course. All applicants must apply through TISC, except where specified.

School Leavers

School leavers are those who have completed year 12 or equivalent and have not commenced post-secondary studies (AQF Diploma or above) and do not have a higher degree record from any Australian or overseas university. Applicants are deemed to have a higher degree record if they have enrolled past a tertiary institution's census date for any given study period.

Mature age WACE applicants who want to study medicine as a school leaver are advised that they should study four ATAR courses in the one year. Applicants applying on the basis of fewer than four courses will not be considered for this course. Mature age WACE applicants must meet the school leaver criteria stipulated above. There is no upper age limit for school leavers, provided all eligibility requirements are met.

Non-school Leavers: Graduates

Non-school leavers (graduates) are applicants from any university who hold a completed tertiary degree record. Applicants who have completed multiple qualifications will have their full academic history assessed. No incomplete qualifications will be used to determine a notional ATAR. The academic requirement for non-school leavers (graduates) is:

- A minimum notional ATAR of 92.

The table below provides a guide on the grade requirements for each level of completed qualification. Notional ATARs are an internal calculation only and will not be disclosed to candidates.

Qualifications	Grade
Bachelor Degree	Distinction Average
Graduate Diploma	Credit Average
Postgraduate Diploma	Credit Average
Master Degree	Awarded
Doctorate	Awarded

Non-school Leavers: Curtin Course Switchers¹

A Curtin course switcher is an applicant who is enrolled in their first² course of study at Curtin. They must not have a tertiary record from any other Australian or overseas university or have already completed a degree at Curtin.

Applicants must have completed or be on track to complete a minimum of 200 credits of study at Curtin at the end of the year preceding admission. Applicants must have a minimum of 200 credits remaining at the end of the year preceding admission.

Course switchers MUST commence the MBBS program in the first year of the course but may be eligible for some Credit for Recognised Learning. The academic requirement for Curtin course switchers is:

- A minimum course weighted average (CWA) of 80.

1. Students who are in their second year and beyond of Curtin's Optometry course are not eligible to apply as course switchers.

2. Students who have previously switched courses but otherwise meet these requirements will be able to apply as Curtin course switchers. In this case, the CWA will be calculated from all units completed. .

UCAT ANZ

Applicants* are required to sit the University Clinical Aptitude Test ANZ (UCAT ANZ).

Applicants will be ranked on the basis of their total UCAT ANZ score. No adjustments or consideration will be given by Curtin University to applicants for the UCAT ANZ test, applicants will need to contact Pearson Vue directly.

Applicants that require special testing conditions or are seeking test preparation materials are encouraged to visit the UCAT ANZ website for further information.

UCAT ANZ scores are valid only for the next available admissions year. Applicants should only complete the test in the year immediately preceding their planned year of admission. Applicants re-applying for the MBBS in a subsequent year must re-sit the UCAT ANZ.

 ucat.edu.au/ucat-anz/

**Indigenous applicants are not required to sit the UCAT ANZ.*

SPECIAL CONSIDERATION APPLICATIONS

The special consideration process is administered centrally at Curtin University. Curtin Medical School does not accept any applications for special consideration outside of the centralised university process.

If approved, applicants will be granted between one and five additional ATAR points. The maximum adjusted ATAR will be 99.95, regardless of the number of points awarded or the original ATAR. This is a Curtin University process and does not alter any existing Tertiary Entrance Rank nor does it guarantee course entry.

All applications and enquiries for special consideration are to be submitted to:

Email: ASCadmissions@curtin.edu.au before the relevant deadline.

 futurestudents.curtin.edu.au/undergraduate/pathways/special-consideration

PROFESSIONAL BEHAVIOUR REQUIREMENTS

Curtin Medical School students are expected to meet the professional behaviour standards of a medical student, and as they proceed through the MBBS course, the standards of a medical doctor. Student progression from each academic year to the next is subject to both academic performance and professional behaviour. It is possible that enrolment in the MBBS course can be terminated if professional behaviour is not satisfactory. It is important applicants read and understand the requirements before accepting a place at Curtin Medical School. Additional information is available from the link below.

 curtin.edu/hs-medicine-entry

INHERENT REQUIREMENTS

Studying medicine places substantial demands on students. It is important applicants considering studying medicine familiarise themselves with the inherent requirements of the course, available from the link below.

 curtin.edu/hs-medicine-entry

SCHOLARSHIPS

Scholarships are part of Curtin's commitment to rewarding academic excellence, supporting research and enabling students from all backgrounds to realise their potential.

The Curtin Medical School offers scholarships to assist with relocation costs for commencing rural students as well as scholarships for rural students seeking assistance to sit the UCAT ANZ test. Additional information is available from the link below. Search for scholarships for "student from regional or remote areas".

 scholarships.curtin.edu.au

ENTRY PATHWAYS

RURAL ENTRY PATHWAY

Eligibility Criteria

Up to 25 per cent of places are allocated to Western Australian applicants from a rural background. Rural applicants are those who, as of 31 December prior to the admission, have spent at least 10 years cumulatively or any five years consecutively in an area with a Modified Monash Model remoteness category (MMM) 3-7 since the commencement of primary school. The time frame is based on the location of an applicant's primary residence.

To be classified as a rural student, applicants must be Western Australian school leavers, Curtin course switchers or have completed a tertiary qualification from a Western Australian University.

Applicants who meet the Rural entry criteria will only compete for places with other eligible rural applicants. Entry via this pathway is competitive. Meeting the minimum entry requirements does not guarantee an offer for interview or a place in the course.

Adjustment Schemes

Applicants eligible for a Rural place will receive up to a maximum of five additional adjustment points to their ATAR, course weighted average or Notional ATAR, through either Curtin's StepUp Bonus Scheme or the Curtin Medical School's Rural adjustment scheme.

The maximum adjusted ATAR will be 99.95, regardless of the number of points awarded or the original ATAR. This is a Curtin University process and does not alter any existing Tertiary Entrance Rank nor does it guarantee course entry.

Rural applicants will only be eligible to receive adjustment points from one scheme.

Adjusted ATARs

Please note that any adjustment points from the Curtin Medical School Rural entry adjustment scheme are only applicable for entry into the MBBS at Curtin University.

Proof of Origin

Applicants will be required to submit documentation confirming their proof of rural background origin, to be completed by a recognised member of their community, confirming the applicant meets the criteria for this scheme.

Suitable persons to provide confirmation of rural eligibility include any APRHA licensed health practitioner such as: chiropractor, dentist, legal practitioner, medical practitioner, nurse, optometrist, pharmacist, physiotherapist or a person in one of the following categories: magistrate, minister of religion, school principal, Member of Parliament, police officer or veterinary surgeon.

Family members or a member of staff at Curtin University cannot complete the community confirmation declaration, even if they belong to one of the categories listed above.

How to Apply

Rural applicants must complete the Rural and Equity application form (link below) declaring proof of rural background origin, obtain confirmation of eligibility from a recognised member of their community and sign that their application is "true and complete".

Applicants must submit the original form by email directly to the Curtin Medical School by the published deadline.

 The application form is available at: curtin.edu/hs-medicine-entry

EQUITY ENTRY PATHWAY

Eligibility Criteria

Equity places will be available to Western Australian school leavers from schools with an Index of Community and Socio-Educational Advantage (ICSEA) score of 1,000 and below averaged over the last three years. These schools are usually located in communities that have a high concentration of students from disadvantaged backgrounds with limited numbers of students accessing higher education. These communities are also the target areas for increasing the supply of general medical practitioners.

Equity places are also available for applicants who are classified as experiencing financial hardship (they are receiving Youth Allowance, or their parent or guardian is receiving a Commonwealth Income Support or Commonwealth Means-tested Assistance Payment).

Applicants who meet the Equity entry criteria will only compete for places with other eligible Equity applicants. Entry via this pathway is competitive. Meeting the minimum entry requirements does not guarantee an offer for interview or a place in the course.

Adjustment Schemes

Applicants eligible for an Equity place will receive up to a maximum of five additional adjustment points to their ATAR, through either Curtin's StepUp Bonus Scheme or the Curtin Medical School's Equity adjustment scheme. Equity applicants will only be eligible to receive adjustment points from one scheme. The maximum adjusted ATAR will be 99.95, regardless of the number of points awarded or the original ATAR. This is a Curtin University process and does not alter any existing Tertiary Entrance Rank nor does it guarantee course entry.

Adjusted ATARs

Please note that any adjustment points from the Curtin Medical School Equity entry adjustment scheme are only applicable for entry into the MBBS at Curtin University.

How to Apply

Equity applicants must complete the Rural and Equity application form (link below) and submit the original by email directly to the Curtin Medical School by the published deadline.

 The application form is available at: curtin.edu/hs-medicine-entry

INDIGENOUS ENTRY PATHWAY

Eligibility Criteria

Places will be available to applicants of Aboriginal and Torres Strait Islander descent. Applying through CAS (Centre for Aboriginal Studies), applicants are not required to submit a TISC application, have an ATAR or sit the UCAT ANZ. Those applicants applying through the Indigenous Pre-medicine course are required to successfully pass all units in the course.

All applicants will be required to obtain a Confirmation of Aboriginality prior to commencing in the course. It is important that applicants seeking admission via this pathway begin the process of obtaining their Confirmation of Aboriginality immediately.

How To Apply

Applicants must submit the Indigenous Entry form (link below) via email by the published deadline. This should include supporting documentation which demonstrates that they have the motivation and academic capability to succeed in the MBBS degree.

 The application form is available at: curtin.edu/hs-medicine-entry

Interviews will be offered to competitive applicants. Applicants may be required to successfully complete the Indigenous Pre-medicine and Health Sciences Enabling Course prior to commencing medicine.

Curtin University reserves the right to audit any application documentation submitted in support of rural, equity or Aboriginal and Torres Strait Islander entry to the MBBS course.

APPLICATION PROCESS

HOW TO APPLY

(DOMESTIC APPLICANTS ONLY)

1 UCAT ANZ Registration

All applicants (other than Indigenous) must register to sit the University Clinical Aptitude Test ANZ (UCAT ANZ) before the application closing date. The UCAT ANZ exam is held nationally during the month of July, in test centres across Australia and New Zealand as well as specified global locations.

Applicants are responsible for making their own arrangements to register for the UCAT ANZ. Please refer to the UCAT ANZ website, which explains the test in detail and sets out the procedures for registration including the fees payable, test centre procedures and regulations.

 ucat.edu.au/ucat-anz/

2 TISC Application

All applicants (including Curtin Course Switchers) are required to apply through the Tertiary Institutions Service Centre (TISC) with the exception of those applying through the Curtin Centre for Aboriginal Studies (CAS).

TISC receives and processes applications for undergraduate degrees on behalf of the four public universities in Western Australia. The TISC application procedure allows applicants to list up to six courses in order of preference.

Applicants are advised to ensure their contact details as supplied to TISC are current as these are the details that will be used for all correspondence, including interview invitations, where applicable. It is the applicant's responsibility to ensure these details are kept up to date at all times through the selection process.

 tisc.edu.au

Change of Preference

A change of preference includes changing the order of the existing preferences in the TISC application, as well as adding new preferences. This can be done by editing the application after it has been lodged on the TISC website.

Please note: **NEW** applications or preferences for the MBBS will NOT be considered after the closing date. Changes to the order of existing preferences, including the MBBS, must be done by the published deadline*.

*Subject to TISC processing schedule – refer to TISC website

 tisc.edu.au

3 Predicted ATAR

All school leaver applicants (both Western Australian and interstate) are required to submit the predicted ATAR form for their school principal to complete and return directly to Curtin Medical School by the published deadline. Completed forms must be emailed from the school principal or authorised school representatives' email address.

A copy of the form will also be emailed to applicants upon submission of a TISC application. The form will be sent to the email address provided within the application, please ensure that the email address provided is one that is checked regularly.

Applicants are responsible for ensuring that their predicted ATAR form is submitted to the Curtin Medical School before the published deadline. In particular, WA school leaver applicants must submit their predicted ATAR form by the published deadline to ensure that they can be considered for an interview in December.

 For the predicted ATAR form visit:
curtin.edu/hs-medicine-entry

4 Rural/Equity/Indigenous Application Submission

Submit any special entry application by the published deadlines.

 For the relevant forms visit:
curtin.edu/hs-medicine-entry

SELECTION PROCESS

RANKING FOR INTERVIEW

Applicants are ranked and selected for interview based on the weighted sum of their academic merit score (ATAR or equivalent) and their UCAT ANZ score (out of 3600) in the ratio of 60:40. Please note this course is very competitive, with limited places available. Meeting the minimum requirements does not guarantee you an offer of an interview or a place in the course.

Only shortlisted applicants will be contacted for an offer of interview.

THE INTERVIEW

The interview process provides an opportunity for short listed applicants to demonstrate how they communicate, critically appraise information and think about issues important to the medical profession.

The top ranked eligible applicants from each entry pathway will be invited to attend a Multiple Mini Interview (MMI). Applicants offered an interview will be able to select an interview time from a limited number of sessions on a first-come, first-served basis. During this time, applicants can cancel and reschedule within the offered session times. Interviews will only be available on dates published by Curtin Medical School. It is not possible to rearrange an interview to another date not previously published by the Curtin Medical School. All applicants should ensure they keep these dates free.

All interviews will be conducted in person at the Curtin Medical School. Applicants are responsible for their own travel and accommodation arrangements.

Attendance at an interview is mandatory in order to meet minimum course entry requirements. Attending an interview does not guarantee an offer of a place.

Applicants are advised to monitor the email address and phone numbers supplied to TISC as these are the details that will be used for all correspondence. It is the applicant's responsibility to ensure these details are kept up to date at all times throughout the selection process.

INTERVIEW SCHEDULE

December Interviews

Competitive and eligible Western Australian school leavers who have submitted a predicted ATAR form by the relevant deadline, Curtin course switchers and Western Australian non-school leavers will be invited to attend an interview in the December interview rounds. The predicted ATAR is used for Western Australian school leavers in this round, as the actual ATARs will not yet be available.

January Interviews

Competitive and eligible interstate school leavers, interstate non-school leavers and those WA applicants whose actual ATAR

renders them competitive will be invited to attend an interview in the January interview rounds. Actual ATARs are used for all school leavers in this round.

Information for Interstate Applicants

As travelling to Western Australia to attend an interview is costly, applicants who live outside Western Australia will be interviewed in January.

By holding interviews in January, interstate applicants need not attend an unnecessary interview if they receive an offer at their most preferred university in the TISC December offers. Competitive applicants will then have the opportunity to attend January interviews at Curtin Medical School if they so wish.

All applicants will undertake the same interview process, regardless of when they are interviewed. Applicants will not be disadvantaged in any way if they are interviewed in January.

RANKING FOR AN OFFER OF A PLACE

Applicants will be ranked for offer based on their academic merit score (actual ATAR or equivalent), their UCAT ANZ score and their interview performance.

Curtin Medical School will make offers during the December round of TISC offers on 23 December 2019. Curtin Medical School will not make any offers during the January round of TISC offers on 16 January 2020. Curtin Medical School's January offers will be released in late January 2020 after the conclusion of the second round of MMIs on 22 and 23 January 2020.

If selected, you will still receive an offer from the Curtin Medical School in late January 2020 even if you have received or accepted an offer for other courses or institutions in the January round of TISC offers.

An information sheet detailing this process will be made available on the Curtin website.

 study.curtin.edu.au/applying/application-requirements/medicine/

Deferral Requests

Deferral requests following an offer of a place in the MBBS course will only be considered in exceptional and unforeseen circumstances (for example, national service).

Applicants must submit a request for deferment of a place, along with supporting documentation, within five working days of the offer to CMSFutureStudents@curtin.edu.au

Requests will be reviewed by the Dean of the Curtin Medical School and applicants will be advised of the outcome by email in due course.

SUCCESSFUL APPLICANTS

LOCATION

Curtin Perth is located in Bentley, a busy suburb approximately 20 minutes from the CBD by car. The academic office of the Curtin Medical School is located on the main campus in a new purpose-built building close to the six other schools of the Faculty of Health Sciences.

The first three years of the course are taught at Curtin Perth, with periodic visits to clinical sites. The final years of the curriculum will be undertaken in a variety of clinical placement sites, including outer-metropolitan and rural sites.

Students will have the opportunity to undertake clinical placements at St John of God Midland Public Hospital, Royal Perth Hospital, Fiona Stanley Hospital, Peel Health Campus, general practice clinics across the state and rural medical settings.

ACCOMMODATION

Living on campus is a great way for students to get the most out of their university experience. Curtin provides a number of accommodation options for students studying at Curtin Perth.

On-campus accommodation is in high demand and applicants are advised to submit an application for housing as soon as they lodge their TISC application. A valid offer is not required to reserve accommodation on campus and applicants are able to cancel their housing application at any time before semester starts, without penalty.

Please contact Housing directly to discuss available options.

 students.curtin.edu.au/campus/accommodation/bentley/

ORIENTATION

A medicine pre-orientation program, followed by the University official orientation week will run prior to the commencement of Semester 1. Attendance is compulsory and applicants who accept a place in the course should plan around these dates accordingly.

MANDATORY REQUIREMENTS

All Curtin Medical School owned units have compulsory fieldwork/clinical placements. During first year, students must complete various screenings and activities to ensure their safety and the safety of the general public are maintained during the placement. These include:

- National Police Certificate
- First Aid Certificate ("Provide First Aid")
- Mental Health First Aid Certificate
- Working with Children Check (2nd year requirement)
- Hand hygiene training
- Completion of stipulated health screening and immunisations (some vaccinations require multiple inoculations over a period of time so students must plan their schedule accordingly).

First Aid Certificate and Mental Health First Aid Certificate training courses will be arranged as part of pre-Orientation.

Failure to provide evidence of compliance with these requirements will prevent students from attending fieldwork/clinical placements and as a result they will be unable to complete course requirements.

Incidental fees are applicable for the majority of essential requirements listed above.

 students.curtin.edu.au/essentials/fees/

Students will be responsible for all costs associated with mandatory screening requirements for fieldwork/clinical placements, including vaccination and screening costs.

 healthsciences.curtin.edu.au/schools/curtin-medical-school/fieldwork/

SUCCESSFUL APPLICANT CHECKLIST

- Accept your offer.
- Complete your enrolment in ENROLNOW!
- Start working towards attaining the various mandatory requirements, some of which are due in the third week of Semester 1.
- Arrange housing and familiarise yourself with transportation options.
- Arrange to attend the medicine pre-orientation program and orientation week.

More information will be available in ENROLNOW! and the CMS Year 1 Student Handbook which will be emailed to you after you have accepted your offer.
